Twenty Years On

By WILFRID ANDREWS, CBE,

Chairman of the Royal Automobile Club

It is twenty years since the RAC was granted International status for its annual rally and with the exception of two years when petrol rationing and 'foot and mouth' disease caused cancellation, it has been held every year since.

It has gained in stature with the years, thanks to the efforts of the RAC and Jack Kemsley and his family particularly and the organising committee, and today is rated by many as one of the two or three outstanding rallies in the world.

The high regard in which it is held internationally is evidenced by the large number of overseas entries received and altogether nearly 250 crews have been entered for the 1971 event.

There are problems, of course, amongst them ever-increasing costs and the difficulties of finding suitable land over which to run the special stages which, as you all know, are the essential and integral parts of the rally.

Happily, the Daily Mirror is again sponsoring the event and in addition to the Forestry Commission, the Bradford Corporation and the owners of Harewood House, Castle Howard, Woburn Abbey, Knebworth and Donington Park, have provided land for special stages which should give the rally a unique flavour.

We are most grateful to them and to all the other individuals and organisations who have offered help, not least the great army of volunteer marshals and officials many of whom will spend long cold and often wet nights in lonely forests just to ensure that "the rally goes through!"

There is one other person to mention. Twenty years ago, the start was at Harrogate, the winning car was a Jaguar and the driver one Ian Appleyard. This year, the start will be at Harrogate, the winning Jaguar of twenty years ago will be driven on to the starting ramp – and the official starter will be Ian Appleyard. It seems to bring the wheel full circle.

Wonderful Opportunity for Privateers

By ANTHONY MILES
Editor of the 'Daily Mirror'

THIS is the third year that the 'Daily Mirror' has sponsored the RAC International Rally of Great Britain.

Last year the event attracted an all-time record entry, outstripping even the famed "Monte". This year, the RAC and the "Daily Mirror" have co-operated to produce a new-shape rally making use of the outstanding facilities at Harrogate for the start, overnight halt and finish.

The result is that more works teams than ever before, representing many of the leading British and Continental manufacturers, will be taking part.

Their participation is healthy for the motor car industry, exciting for the public, a good sign for the future of the Rally itself—and represents a wonderful opportunity for the private entrant to compete with the very best of the world's rally drivers.
